DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-5, 7, and 18-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watanabe et al (US 3,936,575) in view of Frost (US 3,984,375) and in view of Akahoshi (US 4,970,107) for reasons of record.

Response to Arguments

Applicant's arguments filed June 16, 2005 have been fully considered but they are not persuasive.

Applicant argues the resin of Frost does not meet the insoluble content limitations of claim 1 or the claimed radius of curvature. To support said argument, Applicant has filed a Rule 132 Declaration demonstrating Example X of Frost does not meet said limitations. Said declaration is acknowledged but has not been considered because it is not signed. Since Applicant's arguments cannot take the place of evidence, the rejection is maintained.

Applicant further argues the roughness taught in Akahoshi is the roughness of the copper layer, not the roughness of the heat resistant resin film layer, which is in contact with the metal foil. Applicant argues said roughness values are not the same. The examiner respectfully disagrees. The resin layer which is in contact with the metal foil will have the same roughness as the metal foil layer.

Thus, Applicant's arguments are not persuasive.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
